DETAILED ACTION

Claim Rejections - 35 USC § 102

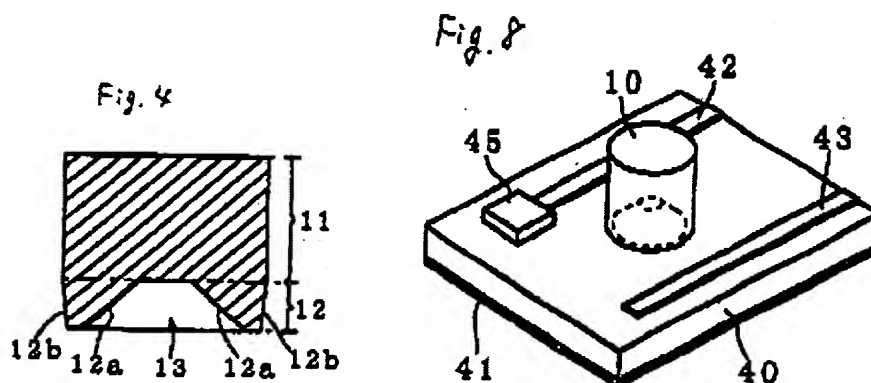

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Kurisu et al US Patent 6,429,756.

Kurisu et al disclose in figures 4 and 8, a dielectric resonator comprising: a dielectric resonance element 10; and a protrusion portion 12 disposed on a bottom surface of the dielectric resonance wherein a side face 12b at an outer periphery of the protrusion portion is tilted such that an area of an upper surface of the protrusion portion adjacent the bottom surface of the dielectric resonance element is larger than an area of a lower surface of the protrusion portion, wherein the lower surface of the protrusion portion is fixed to a mounting substrate 40, and wherein an electromagnetic field used in the dielectric resonance element is in the TE01 mode. The entire side face at the outer periphery of the protrusion portion is tilted. The area of the bottom surface of the dielectric resonance element is larger than the area on the upper surface of the protrusion portion. Column 3; line 31 through column 4 line 37 with emphasis on column 4 lines 25-31. The dielectric resonator can be used in filter (figure 6), a duplexer (figure 7), an oscillator (figure 8) and a communication apparatus (figure 9).

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
